The Song Lines 2020 programme

Music Generation Louth in partnership with LMETB's Creative Interventions Project (funded under Peace IV), are excited to announce a new Creative Music course for Transition Year students.

The course is a 5-day practical course in popular music for school students. The music technology and production course is designed to be fun and engaging and will introduce students to a variety of music creation methods, with classes available for beginner to advanced levels. Students will be able to use virtual instruments and no experience is required to take part in the course.

Participants will learn to create songs and remixes using music technology techniques, including programming beats, loops, virtual instruments, sampling, and live instruments.

Yours sincerely,

Ciara Goring
